No knowledge of arithmetic is required to enjoy this. All you need is a logical mind, a pencil and an eraser. Try it. Suffer its torture. Discover its ecstasy. It's a mind game you will solve with reasoning and logic.

The rules are very simple. Fill in the grid with numbers so that every row, every column and every small 3x3 box contains the numbers 1 to 9. Each number has its allotted place if you look hard enough. No number should be repeated in any row, column or 3x3 box. Here's an easy one to try - See tomorrow's Island for solution.

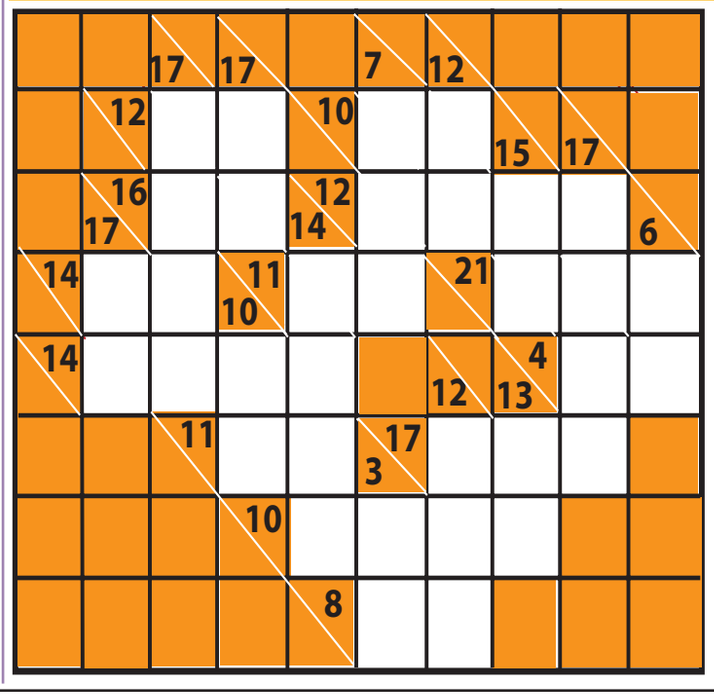
Sonam Kapoor to get slimmer

The Saawariya beauty Sonam Kapoor, who once weighed 90 kilos, has decided to shed some more weight. The lady is being forced by her ultra slim dad, Anil Kapoor. Anil had even gone to the extent of presenting his daughter a sugarless and fat free, birthday cake on her birthday. Sonam was first a little disappointed with the continuous insistence of his dad as she is already thin enough, but eventually, she understood that there still are ladies out in bollywood who are slimmer than her, and her first comparison was none other than Deepika Padukone. Sonam has thus starred running to get as 'slim' as her boyfriend stealer.

Is it another youngie heading towards size zero??

KAKURO 59



How to play

Fill in the blank squares, using 1 to 9, without repeating any number in any line. The lines must be filled in with numbers that add up to the total in the shaded box at the top or beginning of each line. A number in the bottom half of the shaded box is the downward total; in the top half, it's the horizontal total.
