Solution to No. 1013

No knowledge of arithmetic is required to enjoy this. All you need is a logical mind, a pencil and an eraser. Try it. Suffer its torture. Discover its ecstasy. It's a mind game you will solve with reasoning and logic. The rules are very simple. Fill in the grid with numbers so that every row, every column and every small 3x3 box contains the numbers 1 to 9. Each number has its allotted place if you look hard enough. No number should be repeated in any row, column or 3x3 box. Here's an easy one to try - See tomorrow's Island for solution.

Rani Mukherjee Hits The Gym

We haven't seen Rani Mukherjee for quite sometime after her Thoda Pyar Thoda Magic bombed badly last year. We haven't even heard of her signing any big projects or plum roles. Just as we wonder what Rani is upto we get to hear that she has hit the gym and that is what is keeping her busy these days.

Rani Mukherjee had a perfect body, she looked nice in Kabhi Alvida Naa Kehna. But that was long ago. Perhaps she feels the need to look slimmer and toned. Apparently she has taken up strict diet and workout regimes.

Aamir had recommended his Ghajini fitness trainer Satyajit Chaurasia to Rani. She wouldn't be getting a six-pack for her self... perhaps she gets back to her usual fitself.

KAKURO 241

How to play
 Fill in the blank squares, using 1 to 9, without repeating any number in any line. The lines must be filled in with numbers that add up to the total in the shaded box at the top or beginning of each line. A number in the bottom half of the shaded box is the downward total; in the top half, it's the horizontal total.
