Big B miffed by critics for bad reviews against Delhi 6

Big B is quite upset these days by the critics who have written *Delhi 6* off. The senior Bachchan feels that *Delhi 6* is based on a complex subject which needs through honesty and strength to understand.

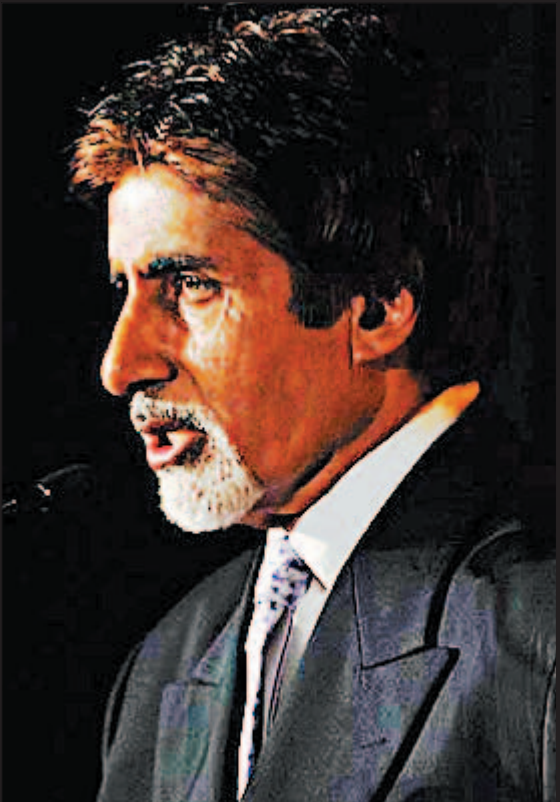

He writes on his blog, "The system...Needs strength...Needs an honesty... Needs to look within... A philosophy, ironically, portrayed so beautifully in *Delhi-6* and an aspect, so mercilessly criticised in the reviews and opinions."

"These (critics) individuals are the masters of the game. They are trained and knowledgeable in the job. Their opinion counts and forms the basis of analysis in

attracting the customer to the theatre. So how feasible is their report when their observations differ to such an extreme and large extent."

But... just the other day the same learned critics, had derided those that had expressed negative opinion on '*SlumDog Millionaire*', vociferously defending the contents of the film, by arguing, that those that opposed it, did so because they were reluctant to accept someone who was showing them a mirror!!

So then, metaphorically speaking, or should it rather be, philosophical speaking, what are we saying - *SlumDog* is ok and *Delhi 6* not??

Solution to No.1051

No knowledge of arithmetic is required to enjoy this. All you need is a logical mind, a pencil and an eraser. Try it. Suffer its torture. Discover its ecstasy. It's a mind game you will solve with reasoning and logic. The rules are very simple. Fill in the grid with numbers so that every row, every column and every small 3x3 box contains the numbers 1 to 9. Each number has its allotted place if you look hard enough. No number should be repeated in any row, column or 3x3 box. Here's an easy one to try - See tomorrow's Island for solution.

How to play

Fill in the blank squares, using 1 to 9, without repeating any number in any line. The lines must be filled in with numbers that add up to the total in the shaded box at the top or beginning of each line. A number in the bottom half of the shaded box is the downward total; in the top half, it's the horizontal total.
